BEFORE THE BOARD OF OIL,  
GAS AND MINING DEPART-  
MENT OF NATURAL RE-  
SOURCES in and for the STATE  
OF UTAH

IN THE MATTER OF THE AP-  
PROVAL OF THE NOTICE OF  
INTENT AND RECLAMATION  
PLAN SUBMITTED BY MIDCO  
INC., HORNET AND SHE MINE,  
JUAB COUNTY, UTAH

ORDER TO SHOW CAUSE  
NO. ACT/023/005

THE STATE OF UTAH TO ALL  
OPERATORS, TAKERS OF PRO-  
DUCTION, MINERAL AND ROY-  
ALTY OWNERS, AND PARTIC-  
ULARLY ALL PERSONS IN-  
TERESTED IN TOWNSHIP 12  
SOUTH, RANGE 18 WEST, JUAB  
COUNTY, UTAH.

Notice is hereby given that  
tentative approval was given to  
Midco Inc. by the Utah Division  
of Oil, Gas and Mining, to com-  
mence surface tungsten mining  
on portions of Section 28,  
Township 12 South, Range 18  
West, Juab County, Utah. The  
name of the mine is the Hornet  
and She Mine, and the person  
representing the company in this  
matter is Mr. Kenneth D. West-  
wood, Midco Inc., P. O. Box  
1448, Provo, Utah, 84601.

Midco Inc. has fulfilled  
obligations under the Mined  
Land Reclamation Act of 1975  
(Section 40-8, U.C.A., 1953, as  
amended) and will employ the  
following mining and reclama-  
tion techniques on 20 acres  
which will comprise the land af-  
fected. Legal access to the land  
affected is by unpatented min-  
ing claims.

### MINING AND RECLAMATION PLAN:

1. Mining will be conducted in  
a safe, orderly, and minerlike  
fashion.

2. Surface trenching will be  
done with a track-mounted  
backhoe. Trenches will be dug  
20 feet wide by 50 feet long by 7  
feet deep in a series. The top  
three-four feet of overburden  
will be stockpiled alongside the  
trench.

3. After removal of four feet  
of ore from the trench, the three-  
four feet of overburden will be  
returned to the trench.

4. The present land contour is  
a side hill sloped at 15 to 30  
degrees. The trenching will occur  
on approximately 15 acres of  
previously disturbed land con-  
taining trench and drill roads.  
Approximately five acres of un-  
disturbed land will be disturbed.  
Topsoil from this five acres will  
be conserved for later use in  
revegetation.

5. After operations, ex-  
traneous debris, scrap metal and  
wood, will be removed from the  
surface of the site.

6. Upon completion of the cut  
and fill trenching operation, the  
area will have achieved the final  
postmining land configuration.  
The area will then be prepared,  
revegetated and monitored until  
70 percent of the 15 percent  
vegetative cover is achieved.  
When a vegetative cover of 10.5  
percent has been met, the bond  
will be released, in accordance  
with Rule M-10 (12).

Reclamation performance  
surety will be posted prior to  
final approval of the plan.

Any person or agency aggrieved  
by this tentative decision is  
hereby requested to submit writ-  
ten protest with 30 days from  
October 9, 1980, to the Division  
of Oil, Gas and Mining, 1588  
West North Temple, Salt Lake  
City, Utah, 84116, setting forth  
factual reasons for his or her  
complaint, and thereafter, at a  
time and place heretofore  
established, appear before the  
Board of Oil, Gas and Mining, to  
show cause, if any there be, why  
this plan should not be approv-  
ed.

DATED this 1st day of Oc-  
tober, 1980.
